PRENATAL MASSAGE

TO LAY FACE DOWN OR ON YOUR SIDE

THAT IS THE QUESTION

...but don't you miss laying on your belly?

Improve circulation, reduce swelling, and relieve lower back tension—once you've escaped the first trimester.

You've got options: a prenatal cushion lets you lie face-down (yes, really), or we'll get you cozy side-lying with a pregnancy pillow.

FOOT REFLEXOLOGY MASSAGE

WALK THIS WAY

FEET ARE IMPORTANT TOO

Pressure is placed on certain spots on your feet — spots thought to mirror organs, glands, or body systems.

By stimulating these reflex points, the aim is to relax you, boost circulation, balance energy, ease pain, and support overall wellness.
